John McKnight is back

Since the beginning years, climbing hills at McGill in Montreal, John has been a foundation for the Summer Institutes. He still is. We have all aged, but his ideas and commitment are fresh, lively and challenging. You need a 'dose' or a 'refresher' of McKnight. Everyone does. And get 'more' with Mike Green and his team as they continue their exploration of Asset Based Community Development - and beyond.

Where to Go..

Below you will find links for the Ryerson University MAP. Click on Pitman Hall and you will find us at TSI09. There are also a couple of links for 'eating in Toronto'. You can eat in virtually any country in the world somewhere in the city - so come prepared to explore the world with us this summer.
