

Hope Leet Dittmeier: Holding True to the Mission in the Midst of a Pandemic

Mattingly Edge is fiercely committed to helping people experience the good things in life that many take for granted. Over the last several years, we've noticed some critical features that support us to do good work. During our time together, we will reflect on these features. We will consider how the pandemic has impacted the work, for better and for worse. And, of course, we will share stories!

The presenters include Steven Carr, Hope Leet Dittmeier, Whitney Kays and Graham Maupin.
